Portable and Reusable Mats for Wheelchair Access

## • Equal Access Required for Beaches and Playgrounds

The American Disabilities Act (ADA) requires that all public playgrounds and beaches be made accessible to America's 43 million disabled citizens. Beachrings<sup>2</sup> makes it easy and cost-effective for you to comply with the ADA.

## • Benefits

- High wear resistance
- Flexibility in cold temperatures
- Longer-lasting color
- Lightweight
- Portable and reusable
- Easy to install and store
- Protects fragile environments—controlled access from the parking areas to the shoreline, thus encouraging users to stay off sensitive vegetated areas.

## • Applications

- Wheelchair, handicapped, and stroller access to beaches
- Election-day access to voting booths and sites
- Emergency vehicle access on sand, mud, or snow
- Temporary cemetery and funeral access to plots and markers
- Festival, display, and pedestrian event access

## • Maintenance Is Quick and Simple

There's no extra equipment required to keep your Beachrings<sup>2</sup> system clean. Simply sweep them—manually or tractor-mount—while in place.

*The top surface of Beachrings<sup>2</sup> is slightly textured for traction and provides a cooler walking surface than hot sand. Rings and ribbing on the bottom prevent movement on the shifting sand or mud.*

*"These mats have provided a much-needed service for the handicapped in our town. They not only allow wheelchairs access to the beach, but people with walkers and canes are now able to reach the water. The residents of the town have been calling our department with rave reviews of the mats." —Dave Curley, Director, Recreation and Human Services, Barnstable, MA.*

*Beachrings<sup>2</sup> is available in three standard colors—sky blue, tan, and gray. Call for custom-color pricing. Available in preassembled rolls and in individual tiles (see chart).*

*Cover photo: Beachrings<sup>2</sup> provides access for all visitors at Foster Beach, Chicago, IL.*
